

“ Fantastic Service. I have used BR Network with various Companies over the years and they always deliver good quality sub-contractors happy to take on new work. 5 Star service ”

The Client

Morgan Sindall Property Services

Our Contact

Sebastian Mountague,
Pre-Construction Manager
Morgan Sindall Property Services Limited

The Challenge

BR Network were instructed to find good quality sub-contractors who were interested in pricing this secured framework job of reactive maintenance for Morgan Sindall Property Services Limited with a view of them building a long term relationship.

The challenge was to deliver enough interested local companies in such a short time frame.

The Solution

Successfully Resourced 17 different Trades at short notice.

Tenders sent on behalf of Morgan Sindall Property Services Limited ensuring BR Network customers were given the opportunity to price and win work on a long term basis.

Many customers have built lasting relationships with one of the UK's leading Construction firms

The Project

Basildon Council Framework, Essex

The Value

£330 million over 15 years

The Results

BR Network were able to use the newly launched mobile app to communicate with sub-contractor clients and follow up with those who expressed an interest by telephone to confirm their interest.

This thankfully proved to be hugely successful as customers who were previously hard to get hold of were able to register their interest with a simple click of a button on their mobile and this enabled BR Network to successfully deliver the job on time.

Morgan Sindall Property Services Limited have since turned to BR Network for a number of other live projects which in turn has meant more quality work for our customers.
